GHD

SOVEREIGN ACTION ENGINE

DON'T ADD AI.
REMOVE FRICTION.

From messy information to a reviewable next action.

POWERED BY APERTUS · BUILT FOR THE REVEALED CHALLENGE

Concept deck — challenge-specific claims are added only after real testing.

THE PROBLEM IS NOT A LACK OF DATA.

IT'S THE GAP BETWEEN DATA AND ACTION.

Documents. Messages. Images. Tables. Rules. People.

G H D is designed to close that gap.

ONE SCREEN. ONE DECISION.

The final UI adapts to the challenge revealed on site.

18 pages

3 images

2 languages

RUN ANALYSIS →

UNDERSTAND

Extract facts

Connect evidence

Flag uncertainty

Prepare action

DECISION LAYER

12 facts found

3 critical issues

2 missing inputs

READY FOR HUMAN REVIEW

G H D

CLOSED AI ASKS YOU TO TRUST IT.

G H D SHOWS YOU WHY.

RECOMMENDED ACTION

Proceed — after two missing facts are confirmed.

EVIDENCE 01	Source document · page [x]
EVIDENCE 02	Structured data · field [x]
UNCERTAINTY	Two required inputs are missing

HUMAN CONTROL

APPROVE

EDIT

REJECT

Nothing is sent automatically.

WHY APERTUS?

Not because it is fashionable. Because the architecture matters.

01

OPEN

Reproducible foundation

02

SOVEREIGN

Data-control story

03

MULTILINGUAL

Swiss workflows

04

DEPLOYABLE

Flexible infrastructure

Final claim = exact model + endpoint + tools + test results used by the team.

G H D

THE WOW MOMENT NEEDS PROOF.

No invented percentages. These numbers are filled after real tests.

G H D

FROM HACKATHON TO COMPANY.

The challenge becomes the wedge. The engine becomes the platform.

01

SOLVE

One painful workflow

02

PILOT

With real users

03

PROVE

Time + quality + repeat use

04

SCALE

Across adjacent workflows

Pricing and market size stay hypotheses until customer validation.

GHD

THE FUTURE IS NOT MORE AI.
IT'S BETTER ACTION.

Transparent. Reviewable. Sovereign.
